SUMMARY OF ST. LOUIS MARKETS.

Though weather conditions were generally favorable in the winter belt and crop re-Though weather conditions were generally favorable in the winter belt and crop reports were bearish, yesterday's local grain markets advanced under the impetus of increased foreign demand and a lessening of the stocks in store. Shorts were nervous throughout the session and offerings were extremely light. There was good buying on every recession and the activity was not confined to pit traders. Commission men had buying orders from outside customers. While this class of business was not extensive, it did its share in keeping values on the upturn. Receipts, though larger than on the corresponding day last year, were below the recent average. Liverpool and other European markets opened strong. Parts led the advance in the closing hour. Private-wire advices indicated crop shortages in Europea and Germany and unfavorable weather on the
